

## 2022 Nominating Committee

Thank you to all the 2022 Nominating Committee members for their efforts in procuring qualified candidates to run for the 2022 Board of Directors and 2023 Nominating Committee.

The committee reviewed a current list of voting stockholders, information received from interested parties, and conducted director candidate interviews to determine those that are eligible, qualified and would make the best candidates for either the director or nominating committee positions. The Committee members in voting regions 4 and 5 held director candidate interviews in the fall of 2021.
