

# Agricultural Financing

As a farmer, it makes a big difference when your lender speaks your language and knows the reality of the challenges you face. At GreenStone, we commit ourselves to providing farmers and agribusinesses with the secure capital, rural expertise, and market knowledge they look for in a partner. We offer:

- Loans for equipment, land, or buildings to expand your business
- Financing for annual operating costs so you can get ahead
- Crop and life insurance, and tax, accounting, and payroll services to support your operation
- Support for young, beginning, and small farmers to help you build a life and carry the industry forward

We're proud to provide the farmers and agribusinesses in our community with the necessary capital to help them grow their operations, and we're ready to do the same for you.

With locations across Michigan and northeast Wisconsin, we're here when you're ready to talk.
